

The Amazing Cybersecurity Race: 5 Essential Checkpoints on the Road to Security

CHECKPOINT 1

Secure Your Passport

Use strong, unique passwords for every account.

CHECKPOINT 2

Add an Extra Stamp

Enable multi-factor authentication (MFA) wherever possible.

CHECKPOINT 3

Spot the Detours

Learn to recognize phishing emails, fake websites, QR code scams, and AI-generated impersonation attempts.

CHECKPOINT 4

Keep Your Gear Updated

Install software updates promptly.

CHECKPOINT 5

Travel as a Team

Participate in security awareness training and report suspicious activity quickly.

Cybersecurity isn't about speed, it's about making smart decisions at every checkpoint.
