

Quiz: Test Drive Your Social Media Safety

Answer these questions to find out if you're ready to take the lead in the social media safety race!

1. What's the best way to protect your social media accounts?

- a. Use the same password for all your accounts.
- b. Use a strong, unique password for each account.
- c. Share your password with a trusted friend.
- d. Write your passwords on a sticky note for easy access.

3. How can you avoid oversharing personal information on social media?

- a. Post everything about your daily life—it's fun!
- b. Share only what you're comfortable with the whole world knowing.
- c. Use private messages to share sensitive details.
- d. Post your location in real-time to show off.

5. What should you do before allowing a new app to access your social media account?

- a. Approve access without checking—apps are usually safe.
- b. Carefully review the permissions and consider if the app really needs access.
- c. Grant full access to all requested information.
- d. Share your login details directly with the app

2. What should you do if you receive a friend request from someone you don't know?

- a. Accept it immediately—they might be a fan!
- b. Ignore it and move on.
- c. Check their profile for signs of authenticity before deciding.
- d. Share your personal details to get to know them better.

4. What's the safest way to handle suspicious links on social media?

- a. Click them to see what they are.
- b. Ignore them completely.
- c. Report them to the platform and avoid clicking.
- d. Share them with friends to warn them.

Results
