

# Managed Security Service Providers Ensure your customers have the most advanced phishing defenses, processes, and resources in place.

## Your Problem.

With the daily threat of a security event ever-present – and **over 90% of attacks being delivered through email**, – phishing defense has become a critical business issue. Managed Service Providers need to ensure they have the most robust Phishing Detection & Response solutions available that can quickly detect, stop, and quarantine the threat.

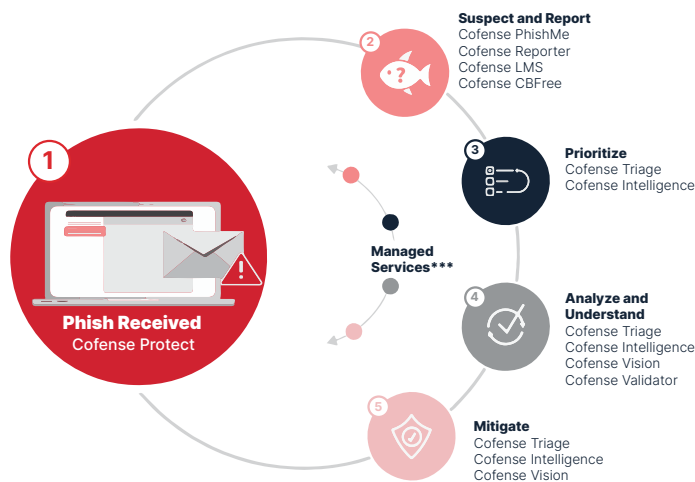

## Our Solution.

Layering in our award-winning phishing detection and response portfolio as part of your Managed Service security services allows you to offer your customers a comprehensive solution to protect their organizations from phishing attacks.

## Why Partner with Cofense?

Cofense is dedicated to building strong, lasting, and mutually profitable relationships. Our Partner Programs give you phishing detection and response solutions, tools and support to grow your business, drive new revenue streams and improve your competitive posture.

### EFFECTIVE PHISHING DEFENSE - THE COFENSE APPROACH

*Cofense's MSSP Program expertly complements our managed IT services to drive transformational results. By integrating Cofense's SOC and security analysts into our MSSP, we are able to add unparalleled expertise to quickly and efficiently address phishing attacks, which are the number one security concern of our clients.*

— Steve Cobb, Senior Technology and Security Fellow at One Source Communications

*In the first 4 weeks after installing Protect MSP, we have blocked more actual malicious emails for our client than we found in those reported by users for the entire year...With an immediate 94 percent reduction in volume of threats to be investigated, Protect MSP quickly reduced the window of exposure to our clients. This lowers client risk and lessens the time spent by our threat analysts.*

— Bradley Roughan, Tetra Defense Vice President of Cyber Defense Operations

# Solutions Available in the Program:

## Security Awareness

**Cofense LMS™** – Provides ongoing employee education and training that is engaging, scalable and customizable. It also includes Computer Based Training (CBT) modules to satisfy compliance needs.

**Cofense PhishMe®** – A purpose-built SaaS platform that improves employee response to phishing attacks and empowers users to provide real-time threat intelligence by immersing them in a real-world spear phishing experience.

**Cofense Reporter™** – An easy-to-use add-in that enables users to report suspicious emails with a simple click from their email client.

## Build Resilience

**Cofense Protect™** – Cofense Protect MSP leverages the combination of our powerful Computer Vision AI with best-in-class phishing simulations and training, enabling MSPs & MSSPs to efficiently protect their clients and themselves with a zero-second phishing detection solution.

**Cofense Validator™** – Validator allows you to objectively evaluate and optimize the configuration of your SEG to stop threats before they penetrate the perimeter and reach employees' inboxes.

**Cofense Triage™** – Cofense Triage is the first phishing-specific incident response platform that stops attacks in progress. It operationalizes the collection and prioritization of employee-reported threats, whether directly from Cofense Reporter or other sources.

## Speed Incident Response

**Cofense Vision®** – The first phishing-specific incident response platform that stops attacks in progress. It analyzes and prioritizes employee-reported emails, allowing operators to respond to real threats.

**Cofense Intelligence™** – A phishing-specific threat intelligence solution – that delivers the right information at the right time to help defend your network.

## Benefits of Partnering with Cofense:

Phishing emails are unavoidable and constantly changing. That's why we provide our MSSP partners a complete phishing defense solution to catch them quickly.

Award winning training and conditioning to recognize today's most pervasive threats.

Best-in-class phishing protection to proactively stop as well as empower end-users to report suspicious emails while leveraging our unique intelligence from a network of 30M reporters for a clear edge in stopping phishing attacks in progress.

Clear ROI and program results through board-level reports enabling customers to show value of the security investment to key company stakeholders.

Flexible Buying Programs including Monthly Consumption based Billing, Annual Billing and Upfront Purchase of Points Based System granting access to a complete Phishing Detection & Response Portfolio.

**INCREASE ATTACK RESILIENCY, SPEED RESPONSE TIMES AND – STOP PHISH FAST. CHOOSE COFENSE.**

## About Cofense

Cofense® is the leading provider of phishing detection and response solutions. Designed for enterprise organizations, the Cofense Phishing Detection and Response (PDR) platform leverages a global network of close to 30 million people actively reporting suspected phish, combined with advanced automation to stop phishing attacks faster and stay ahead of breaches. When deploying the full suite of Cofense solutions, organizations can educate employees on how to identify and report phish, detect phish in their environment and respond quickly to remediate threats. With seamless integration into most major TIPS, SIEMs, and SOARs, Cofense solutions easily align with existing security ecosystems. Across a broad set of Global 1000 enterprise customers, including defense, energy, financial services, healthcare and manufacturing sectors, Cofense understands how to improve security, aid incident response and reduce the risk of compromise.
